

How to Post a Comment

 Use the bottom right hand box to Post all comments. Just type in your comment and click/tap on Post.

 Your Post will appear at the top of the Conversations box on the right hand side of your screen.

 You can also reply to other people's comments. Firstly click/tap on the speech bubble under the comment you want to reply to.

 You will notice the Post box has now changed colour. The colour reflects the colour of the person you are replying to.

 Now just type your comment as you would normally and click/tap Post. You will notice it now appears under the comment you replied to.

 You can view all comments by one particular person, by clicking on the small Avatar next to their Post. Click/tap again to go back to the normal time order.
