

Avatar GPS

When you're in the Chat Room it's easy to follow Conversations using Avatar GPS.

Each Avatar wakes up when the Participant is logged in, and displays which Topic they're in.

Topic menu
Number in Black,
are Replies to your
posts.

Under each
Avatar you can
see what Topic
they are in

This person is
sleeping, so isn't
logged in

When someone makes a new Post the Avatar shakes. And if you are in the same Topic you'll hear a beep.

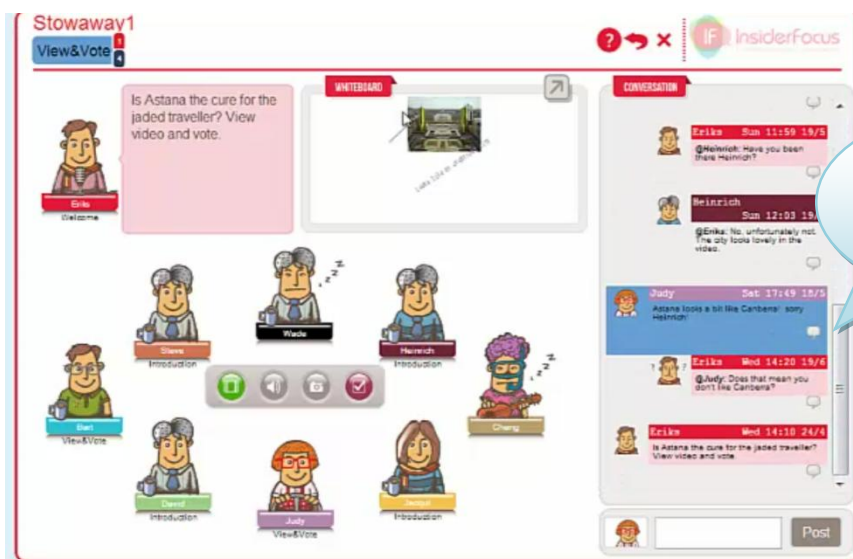

Click/tap on top of the Topic Menu to see the location of the new Post.

The Red number represents Posts, the Black number represents Replies to any of your own Posts.

Click/tap on the Topic name to go there and view the new Post or Reply.

When you enter the Topic, the new Post or Reply is shaded Blue so you can quickly see which one to read.

 If you leave the Chat Room and return later, you will see the Black number if the Facilitator, or another Participant, has replied to any of your Posts while you've been away.

 Again, click/tap on the Topic Menu and Topic name to go there, and read the Reply.
